Hey there! Thank you for visiting this page!

I will keep this section as brief as possible so that I don't take up much of your time. However, if you would like to know more about me or Vipal Siddh, you can hit me up on Instagram or mail me.

### About me

I was born on the 13<sup>th</sup> of Feb, 2003, in Orissa, India but I have spent majority of my childhood and teenage in Hyderabad, India. I like to believe that I am a really friendly and reliable person, and I hope others think the same about me too, haha. Along with developing apps, I am also into graphic designing, sketching, and playing football (don't call it soccer, please.).

### Journey with Vipal Siddh

Vipal Siddh is the third application I have developed, but it's the first to be publicly published. I have been developing applications since 2016. I discovered myself following the steps of Mark Zuckerberg by developing an app for my school too.

The two main reasons why I develop apps is – a) I love developing apps, and coding in general, and b) It will help me achieve my goal of making it to the Forbes 30 under 30 list.

Hope you find this app useful and convenient to use.

Cheers!
